

Exceed New CMS Drug Management Program (DMP) Requirements

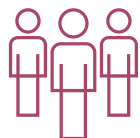

Customizable solutions. Proven Results.

MedWise HealthCare is an industry leader in delivering medication therapy management (MTM) services, equipped to support your drug management needs through our highly specialized and CMS-compliant Drug Management Program.

Meet and exceed CMS requirements with a comprehensive solution:

- Evaluates potential at-risk beneficiaries (PARBs) for case management inclusion criteria
- Prescriber outreach conducted by highly trained clinical case managers to determine the necessity of limitations or lock-ins
- Strict adherence to CMS guidance and timelines
- All-inclusive reporting with ready-to-submit response codes

What makes MedWise HealthCare's Drug Management Program different? Our proactive approach to drug management offers early identification, comprehensive provider outreach performed by clinical case managers, and proven results.

Millions of eligible members
